AMERICAN CREED
John D. Rockefeller Jr., outlined the other evening, in a public address in behalf of the United Service Organization, his ten-point family creed. This must have sounded to many hearers like one simple but unformed creed of the average American. It also gave a good outline of democracy. Said Mr. Rockefeller:

"I believe in the supreme worth of the individual and his right to life, liberty, and the pursuit of happiness."

"I believe that every right implies a responsibility; every opportunity an obligation, every possession a duty."

"I believe in the dignity of labor, whether hand or head; that the world owes no man a living, but that every man has an opportunity to make a living."

"I believe that thrift is essential to well-ordered living and that economy is a prime requisite of a sound financial structure, whether to government, business or personal affairs."

"I believe in the sacredness of a promise, that man's word should be as good as his bond; that character—not wealth or power or position—is of supreme worth."

"I believe that the rendering of useful service is the common duty of mankind and that only in the purifying fire of sacrifice is the dross of selfishness consumed and the greatness of the human soul set free."

"I believe in an all-wise and all-loving God, named by whatever name, and that the individual's highest fulfillment, greatest happiness and widest usefulness are to be found in living in harmony with His will."

"I believe that love is the greatest thing in the world; that it alone can overcome hate; that right can and will triumph over might."

From Winchester Star.

Freedom Is Made of Simple Stuff
From the archives of broken peace we are bringing out old words and doing them off for use again as shining lanterns to lead us through the darkness of another year.

"We like freedom, justice and truth—all of them have to define none of them used more frequently than freedom."

"You cannot say what freedom is, perhaps, in a single sentence. It is not necessary to define it. It is enough to point to it."

"Freedom is a man lifting a gate latch at dusk and sitting for awhile on the porch, smoking his pipe before he goes to bed."

"It is the violence of an argument between two men, in which it is the righteous anger of the pulpit."

"It is the warm laughter of a girl on a park bench."

"It is the sun of a train over the continent and the untraded faces of people looking out the windows."

"It is all the howdy in the world and all the hello."

"It is Westbrook Pegler telling Roosevelt how to raise his children."

"It is Roosevelt letting them raise themselves."

"It is Lindbergh's appealing voice raised above a thousand noises."

Lights of New York

by L. L. STEVENSON

Seen Around the Town: Robert E. Sherwood, who wrote the Pulitzer prize play, "There Shall Be No Night," halted on Fifth avenue by a gushing fan who insists that he must autograph his book for her.

... and when he takes out his pen, she shoves a copy of "Out of the Night" into his nose. ... Phil Spitalny in a jewelry store ordering 35 good luck pins shaped like hour glasses for the girls in his orchestra.

... He calls them "hour charms" and Andrew Kostelnik and his wife, Lily Pons, taking a stroll in Central park in the cool of the evening. ... Bess Johnson, radio actress, buying an entire box of mechanical dogs from a street vendor.

... and later winding them up and turning them loose in NBC's dignified corridors. ... A car double parked on an express street and a crooked young driver in a "push-over" in the sense of one letterer.

... It is a man cursing all cops. ... It is the absence of apprehension at the sound of approaching foot steps outside your closed door.

"It is your hot resentment of intrigue, the tilt of your chin and the tightening of your lips sometimes."

"It is all the things you feel and cannot help feeling."

"Freedom—'it is you'."

—Hazel Parker in Louisville Courier-Journal.

Sporting Note: A Dodger and a Giant fan arguing over the merits of their respective teams in an Eighth avenue dinkery.

The bartender averts battle by turning on the baseball scores and the announcement is that BOTH teams lost.

"The collection of model airplanes in the Hines Airline Terminal grill has been cut one-third because of a recent air raid which destroyed only models of outmoded planes may be shown."

At Forty-fourth street and Broadway, a girl went up to a mounted cop's home, stroked his sleek mustache and then kissed it on the nose. Despite the fact that the cop's name was "Duke," she could get a seat in a crowded subway car, the horse drew up its head and backed away.

And sane folks talk of "horse sense."

Greek Language Study
CLAYTON, N. C.—The Greeks are popular at Hamilton college.

Recently the 125-year-old educational institution decided to inaugurate a new method of awarding an A. B. degree. The new method eliminated Greek or Latin from the course.

Prof. Donald B. Durham of the Greek department announced a sharp decline in the number of students taking the course. Instead there was an increase.

Landing of Naval Forces in Iceland Brings Speculation on Future Moves

Shown here is Hermann Jonsson, prime minister of independent Iceland, who approved President Roosevelt's dispatching of American forces to take over defense of the island from the British.

These were both favorable and unfavorable to the war, then the British commands in North Africa as well as on the British Isles should be having measurably strengthened their hands.

The period in which General Auchinleck took over and General Wavell gave up the North African command was followed by the continuance of the inactivity which had marked this situation.

But as soon as the Syrian peace was announced, it was expected that the North African battle would be resumed, and that the new general plus his new equipment, would make a determined effort to release the long-besieged garrison of Tobruk.

Scientists in the United States, England, Germany, France, Italy, and elsewhere are working on the problem of exchanging astronomical positions.

At least once a month the American committee, which has mailing headquarters at Harvard Observatory, sends copies of four astronomical positions to the German committee, which has its headquarters at the observatory in Berlin.

Dr. Knudsen, of the German committee, said that the German committee has received the positions and is working on them.

He said, however, that Italy was not a member of the committee, and that the German committee was not in a position to exchange positions with Italy.
